The following is an examiner's statement of reasons for allowance: Claims 1-3, 6-8, 11, and 12 define over the art in that while a screw electrode like that recited in the claim may exist, to modify the rejection to include such an electrode would make a 5 reference rejection and it is the examiner's position that there is no motivation to make combine the 5 references.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
